Dear Parents,

Due to the Covid-19 and most schools remaining off campus, After School Learning Tree will offer both ON-SITE and ON-LINE programs in the coming school year to help families who cannot take care of their kids until everything returns to normal. For students who are participating with on-site classes in Del Mar schools and Solana Beach Schools, Learning Tree will still offer student pick-up and after school programs.

ON-SITE Daily Programs:

Morning Programs: Teachers will supervise the students to take their own school's online classes and help them finish their homework and submit. Students need to bring their own devices from home to finish their online classes.

Afternoon Programs: Chinese, Math, English, Art, Ping Pong, And PE classes will be scheduled, just like our traditional after school program.

ON-LINE Daily Programs:

Online Chinese, Math, and English Writing Classes will be scheduled daily in the afternoon for students who stay at home.

We wish all families a safe and healthy school year. This is a challenge we have never experienced, but we can do it! For 15 years we have always worked hard and cooperated together to solve our problems.

After School Learning Tree really appreciates and thanks you for your constant support.

Stay safe!!!!
